What I wanna say is that you need to have a lot of patience with the game and very good strategizing skills. by1517053 on 9/27/2010 Awesome game, but it needs more enemies. byThe-Will-of-Ochre on 2/12/2011 This game is really the best of it's kind. It is a very good RPG, mixing both combat and puzzle solving into a fantastical world, and it's worth exploring. I would say it's the best RPG released since the Xbox original, in the new generation of gaming. byRadoiu_land on 6/10/2011 I was very impressed with this game. The game is definitely not for the casual gamer. I was a bit disappointed to find the villain was not the expected Dark Lord, it was the boss enemy. The challenge/mind defying levels combined with the great story turned me from a casual gamer into a fan of this game. byIrden on 6/22/2011 The game gets easier as you reach max level. It's a good thing. bygtam on 7/26/2011 I love this game! It is easily one of the best RPG games I've ever played. The backgrounds are breathtaking, and there are lots of cool things to do and places to explore.Q: UITableViewCell subviews not showing when UITableView frame update I have a UITableViewCell in my UITableView and I want to animate it from the top to bottom so I did this: -(void)scrollViewDidScroll:(UIScrollView *)scrollView { CGFloat
